Stephen, it is my understanding that the removal order is almost complete. Also, the RI/FS can commence before the removal is started or completed. Preferably, both the removal and RI/FS are conducted concurrently with the removal completed first. Thanks.

I've read the Administrative Order on Consent for the RI/FS for the Falcon Refinery (NORCO). Will there be (or is there) an Agreed Order for the Removal Action? From past conversations the preferred actions at the site included removing the tanks and associated piping prior to submitting the RI/FS workplan. Yet the Administrative Order requires the RI/FS workplan within 45 days of signing.
